
Schmidlin™
Schmidlin AQUAGRIP
individually swiss made.

Schmidlin AQUAGRIP

Almost invisible slip protection

More grip when bathing and showering: Schmidlin AQUAGRIP combines a discreet appearance with a slip-resistant effect that becomes noticeable on wet surfaces.

Schmidlin AQUAGRIP provides reliable grip when bathing and showering. Our new slip-resistant treatment is virtually invisible and barely noticeable to the touch when dry. Its slip-resistant properties only become effective when you step onto the wet surface, providing added safety when bathing and showering. Schmidlin AQUAGRIP is durable and easy to clean.

Only available for alpine white.
Cannot be combined with Schmidlin CLEANEFFECT.

Your benefits at a glance

- Almost invisible
- Noticeable grip on wet surfaces
- Durable and easy to maintain
- 5-year warranty

Tested slip resistance

Class C	27°
Highest rating category for wet barefoot areas	Measured angle during the inclined ramp test

PTested according to DIN EN 16165:2023-02
The measured angle of 27° falls within rating category C (ramp angle ≥ 24°).

Care and warranty

After each use, clean with a soft cleaning cloth and clear, warm water, and dry as soon as possible. For daily care, use a mild bathroom or all-purpose cleaner.

Regularly remove soap, oil and grease residues using commercially available alkaline cleaners. For stubborn dirt, use a soft-bristled brush.

Not suitable: Schmidlin enamel cleaner, aggressive drain cleaners, or cleaners containing sand or strong abrasives.
