ecobau
Certificate

ecobau, Röntgenstrasse 44,
8005 Zurich, www.ecobau.ch

Product	**Schmidlin INFINITY Badewannenträger**
Reg. no.	202608.15986
Assessment based on	Methodology ecobau building materials 2025.4
Application	Bathtub support
Product group	Other Building Materials
Company	Wilhelm Schmidlin AG, Gotthardstrasse 51, 6414 Oberarth

The product meets the **highest requirements** of ecobau and Minergie-ECO with regard to ecological, health and circular economy specifications and receives the rating **«eco1»**.

The product may be promoted using the following attributes

- Highly suitable for Minergie-(A-/P-)ECO
- Corresponds to 1st priority ecoBKP/ecoDevis

This assessment was issued in August 2026 and is valid until August 2029. The assessment is based on the methodology ecobau building materials, version 2025.4.

The assessment criteria have been tightened for the 2025 version. As a result, **«eco1»** and **«eco2»** are at a higher level than the same rating classes of earlier methodology versions.
